fb://julia.biro1
ln://julia-biro
gh://juliabiro

languages

fluent english
native hungarian

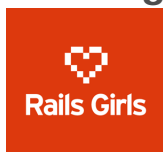

code

Python
bash script
ruby

dev

Git, CI/CD, Makefile,
gradle, package
management

teaching

django girls

interests

scalable HA infrastructure, DevOps, microservices, CI/CD, IaC, secret management
programming for beginners, women in technology

education

2007 – 2013 **BSc degree in IT Engineering/CS** specialization in software development
Budapest University of Technology and Economics
2002 – 2010 **MSc degree in Mathematics** specialization in operation theory
Eötvös Loránd University of Sciences

experience

2014 – **Prezi** infrastructure team
infrastructure and tooling engineer
2011 – 2014 **Ericsson Hungary** edge router software testing
software developer
2008 – 2011 **MTA SZTAKI** Data-mining and Web search team
software developer

skills

Infrastructure management

unix, AWS, Terraform, Docker, nginx, VPN

DevOps

Jenkins, Pipeline, Prometheus, Graphite, Scribe, ELK stack, Artifactory

Microservices

ElasticBeanstalk, Chef, HTTP(s) networking, authentication

Programming

Experience: C++, Java, Javascript; Have seen: Ada, Erlang, Prolog

projects

new CI system

from research through implementation to full company rollout

prezi

2FA

designing a 2FA solution with no clientside change

prezi

In-service OS upgrade

on a live server cluster without outage

prezi

Secret management rollout

using AWS IAM and KMS on a pool of several hundred servers

prezi

IPC-based test tool

for edge-router os, development and maintenance

ericsson

Various programming tasks

recommending pipeline, algorithms, Java GUI

sztaki

hobbies

European cinema; new wave coffee, craft beer/home brewing; music and reading
